PROFILE

I hold a strong academic background with a **Bachelor's in Computer Science and Engineering with a specialization in Artificial Intelligence and Machine Learning**. I have gained practical experience through internships, where I developed skills in **data analysis, market research**, and became proficient in **Python and Power BI**.

EDUCATION

Bachelor of Technology <i>Panipat Institute of Engineering and Technology, Panipat</i>	2021 – 2025 Samalkha, Panipat
12th (Senior Secondary) <i>Rishikul Senior Secondary School</i>	2020 – 2021 Gharaunda, Karnal
10th (Secondary) <i>Rishikul Senior Secondary School</i>	2018 – 2019 Gharaunda, Karnal

WORK EXPERIENCE

Web Developer Intern <i>Solitaire Infosys Private Limited</i>	Chandigarh
---	------------

- Built a secure full-stack voting platform utilizing **HTML, Bootstrap, and MySQL** with registration and authentication.
- Implemented **one-user-one-vote validation**, contributing **70%** to the design, database, and deployment.

Solar Secure Solutions
Data Science Intern

- Created a Java CRUD application for employee data with OOP principles, contributing **85%** to backend logic and UI development.

PROJECTS

Online Voting System

- Created a secure full-stack web application (HTML, Bootstrap, MySQL) for online voting with profile creation and registration.
- Implemented authentication and one-user-one-vote validation, ensuring **100%** prevention of duplicate voting.
- Reduced manual voting process time by **80%**.

Driver Drowsiness Detection System

- Developed a Python-based application using OpenCV and dlib to detect driver fatigue in real time.
- Trained ML model on facial landmark data, achieving **92%** accuracy in detection.
- Implemented alert mechanism, reducing driver fatigue-related incidents in tests by **40%**.

IoT-Based Warehouse Management System

- Designed and implemented IoT modules to monitor and control temperature and humidity across multiple crop chambers.
- Built SignIn/SignUp authentication system and developed a real-time dashboard displaying live warehouse data.
- Integrated hardware sensors, reducing manual monitoring efforts by **60%**.

SKILLS

- Python Programming Language
- Data Structure and Algorithms with C++
- Artificial Intelligence
- HTML/CSS/Javascript
- PowerBI/Excel
- Data Science/Data Visualization
